

About Techman Robot Inc.

Founded in 2015, Techman Robot is the only Taiwanese brand and manufacturer of collaborative robots. With more than 100 dealers in Mainland China, Europe, Japan, Korea, and Southeast Asia, we offer products and services to the market including collaborative robots with built-in vision, intelligent factory management software, and application solutions. Within three years of launching our products, Techman has become the world's second-largest maker of collaborative robots. For details, please see <https://www.tm-robot.com/en/>.
