Impact Science Ventures

Dr. Michelle Kiang

To bring metal additive manufacturing to the mass market, significant improvements in throughput and cost are needed beyond the limits of existing solutions. We have been tracking SUN METALON's development over the past two years, and are impressed by the continued progress they have made based on a truly breakthrough innovation. We are excited to partner with the SUN METALON team through this investment, and look forward to supporting them on the mission to commercialize sustainable metal manufacturing at industrial scale.

i-nest capital

Mr. Toshihiko Honkura

We are pleased to invest in SUN METALON. We believe SUN METALON has the potential to become a leading company in the global 3D printing market, not only in Japan, but also globally, with Kazu's vision of "Local production of metal parts expands Human Frontier across the universe", innovative metal 3D printing methods based on proprietary technology, a management team that supports this vision, and experienced U.S. members. i-nest capital will contribute to SUN METALON's expansion into the global market and enhancement of its corporate value through providing funding

Scrum Ventures

Mr. Anton Thuesing

SUN METALON's innovative technological approach has the potential to be a game changer in the metal 3D printing field. In addition to their unique expertise in metal materials, the team has a strong vision to succeed on a global scale. With Adrian and Mark joining, this vision seems even closer now. We look forward to our journey together ahead and will support SUN METALON by leveraging our expertise in bridging between Japan and the US.

D4V (Design for Ventures)

Mr. Tom Kelley

As early supporters of SUN METALON, we are excited to see the incredible progress they have made in developing a sustainable and cost-effective metal manufacturing solution. Their technology has the power to transform the industry and unlock new opportunities for local manufacturing worldwide. We are proud to be part of their journey and look forward to their continued success as they expand globally.

■ SUN METALON Inc.

Co-Founder & CEO

Kazuhiko Nishioka

I am pleased with the commitment and participation in SUN METALON from these great investors and industry legends. SUN METALON is committed to the local production of metal products around the world based on our proprietary technology. With the strengthening of our team, I am even more confident to achieve the goal quickly and globally. With greater speed, we will continue to move forward.
