

NEWS RELEASE

1. “SEA&AIR Service from China to Europe via Japan”

[Service description]

A BCP solution designed to cope with the temporary suspension/reduction of flights from China, this service offers multimodal door-to-door transport combining maritime transport from Shanghai Port to Tokyo Port with consolidated air cargo transport from Narita Airport to destinations in Europe or the Americas.

[Service features]

- The lead time is 9-10 days from the Nippon Express CFS in Shanghai to the arrival CFS in Europe or the Americas
- Transport costs will be about 30% less than those for air cargo transport.
- The Nippon Express Group will provide high-quality door-to-door transport at origin, destination and transit points.
