inner pocket

**[S] JPY 1,250**  
**Baby - Preschool child**  
H 14cm × W 17cm

**[M] JPY 1,500**  
**School child - Adult**  
H 16cm × W 19cm

**[L] JPY 1,500**  
**Adult (LARGER)**  
H 18cm × W 21cm

AzuriteStyle

## Demerit of the mouth breathing

- \* Virus infection becomes easy to do.
- \* A cavity, periodontitis and the halitosis are caused.
- \* Facial muscle loosens and causes aging.
- \* The oxygen uptake falls.
- \* It'll be a trigger of sleep apnea syndrome.

The mask which gazed at nasal breathing as of April, 2020 is the first our company!  
It's expected to apply for a patent.

AzuriteStyle

**AzuriteStyle mask fits with no gaps on any face or nose type**

AzuriteStyle

Illustration of children around a globe with various greetings: こんにちは, Hello, Bonjour, Guten tag, Ciao, and others.

AzuriteStyle

- Nasal breathing
- UV cutting
- Antibacterial
- Cool touch
- Water absorbing quick drying
- Temperature-rise suppression effects
- Comfortable texture
- Washing durability
- Sore ear rubber

## Uses Japan's world-renowned high-performance and high-functioning fabric material.

### Fabric Used In(examples)

- TRINOCOOL DL (Great Stretchability and Recovery, Quick Water Absorption and Drying, UV Protection, Heat-Insulation Effects, Elastic and Gentle to the touch.)
- Cool MAX KANOKO (Quick Water Absorption and Drying, UV Protection, Heat-Insulation Effects. High-performance knitting material having smooth white-spotted pattern and various functionalities)
- TioTioPREMIUM (Organic Cotton "ORCOTT" series + suppresses bacteria growth and foul odors through the oxidation effects of iron-ion based catalyst agents)
- 100% Silk-Based Satin (Glossy and Luxurious, 100% Silk-based Satin Fabric. All-natural fibers that closely resemble human skin with low acidity (between pH3 to 6). Great air-permeability and desorption properties, as well as bacteriostasis effects and suppresses the growth of germs. Also has effective UV protection)
- Refre Smile (Uses the anti-bacterial polyester fiber "Live Fresh Super" and the quick water absorption and drying polyester fiber "Soierion YC." Anti-bacterial agents are woven into the fiber to semi-permanently keep the anti-bacterial properties. Suppresses the growth of various bacteria and foul odors through the excellent anti-bacterial effects of silver-ions.

## Order Mask

**Delivery time  
3 to 4 weeks**

It's an organic fabric that doesn't make my skin itchy.

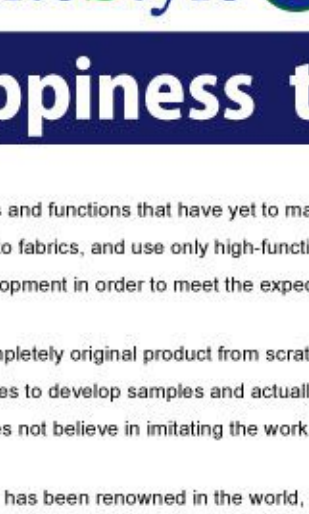

**By combining high-performance fabrics that are not on the market, you can make your own custom-made mask.**

S size 1500 yen ~  
M/L size 1800 yen ~

For a gift!

**One point picture embroidery and initials can be selected. (+300 yen)**

The double gauze fabric has a lot of cute patterns

AzuriteStyle

## AzuriteStyle Brand Concept

### Happiness to Happiness

#### AzuriteStyle's Dedication

- Early-phase development of designs and functions that have yet to make their way to the market
- Have thorough dedication and care to fabrics, and use only high-functioning, high-performance fabrics that are made in Japan
- Do not compromise in product development in order to meet the expectations and alleviate any inconveniences of the students participating in class and their guardians.

In short, we will create an all-new completely original product from scratch.

We have various back-order inventories to develop samples and actually feel the fabric and their functionality.

Just like in the classroom, Azurite does not believe in imitating the product and opinion of others to take the easy way out and be a watered-down or third-rate parody.

Just like how the technology of Japan has been renowned in the world, originality is highly valued.

Since the founding of AzuriteStyle in 2015, in addition to having a product lineup full of originality, the company has been appreciated for being different from other companies, which has led to several new businesses with major department stores in 2017.

We are flattered that people believe our products to be "outstanding," but there is a great deal of care by our staff, not to mention plenty of time and effort for even a single one of our products to be commercialized. So, it honestly saddens us whenever our product is watered down and imitated. These unfortunate circumstances in the last few years have been the reason for us filing a patent for this "Breathable Mask" product.

Our motto of "Happiness to Happiness" was not always around when we started. It is a phrase we made upon our founding and inheritance of the "Linking Together Good Fortune" philosophy of the Azurite Children's School.

All objects have a soul residing within them.

Anytime a gift is to be presented to a loved one, we make sure to carefully packaged them one by one for both sides to share such happiness.

All of our staff members at Azurite believe in our continuing efforts on directly providing our products to our customers with the same care we expressed in the "Happiness to Happiness" motto.

Azurite Kids School

Examination prep school

Teaching that links brain function and music!

Instructor  
Chigusa Mihara

Azurite Kids School Headmaster / AzuriteStyle Co., Ltd CEO Shinichi Mihara

The "Azurite Kids School" was born at Yokohama in November 2011 .  
The headmaster has over 10 years of experience in being the principle of Kanagawa prefecture's largest school, and has supervised and opened the door for thousands of children to enter elementary schools in the metropolitan area every year.  
Although the entrance exams to elementary schools have changed over time, I knew I needed to change classes. However, there are many restrictions on large prep schools.  
That is why the "Azurite Kids School" was opened as a constantly updating and innovative classes.  
The headmaster has created over 20,000 mock entrance exam prints completely from scratch. Most are questions of thinking, many parents also work hard to solve them during class. Many students come to this class from afar.  
We also emphasize "Vision Training" to improve the visual and brain function which are the most important part during the growth of a child. We make sure to check and provide support in the event there are any issues with the eyes, nose, and ears of a child.  
A professional staff will provide the mental support for the child and mother alike, and offer counseling after graduation.  
All of our staff members will be there together with the child and mother in believing in the "Happiness to Happiness"
