

■ WealthPark RealEstate Technologies Company Limited

WealthPark RealEstate Technologies Co., Ltd. provides real-estate asset management services to overseas investors investing in Japan and the United Kingdom. As of January 1, 2022, we provide cross-border asset management services across 8 major regions globally, with major hubs in Hong Kong and Taiwan.

We have developed our own application available in four languages (Japanese, English, Traditional Chinese, and Simplified Chinese) to better communicate with property investors. From management report to providing asset income and expense reports all within the system.

With more than half our employees being from foreign countries, including our new CEO: Kan Chunyi, we are a diverse and inclusive organization.

Our team members not only have expertise and knowledge in domestic and international real estate investment but have experience in investment banking, funds, manufacturing, and consulting.
